Career Objective:

- As a Computer Science Engineer, I aim to excel in a Software Engineer role by leveraging my strong programming skills and deep understanding of data structures and algorithms. Seeking opportunities to contribute to cutting-edge projects, solve complex problems, and continuously enhance my expertise in the field.

Education:

- I am regular student studying in 6th semester in computer science and engineering from GH.Raisoni College of Engineering ,Nagpur
- CGPA:8.93/10

Technical Skills:

- Languages: Python*,Java, JavaScript, SQL Query,Html,Css
- Frameworks: Bootstrap,React. js
- Tools:VS Code, Google Cloud Platform, Github
- Databases: PostgreSQL, MySQL,MongoDB
- Certificated in GCP from coursera
- Subjects:• Data Structures • Algorithms • Object Oriented Programming • Database Management System • Operating System • Networking

Internship:

Intern with Raise Digital-1 Stop–

- Developed using HTML/CSS/JavaScript and Bootstrap, a JQuery-based web Application.
- I created html todo list by using basic JSON(javascript object notation) and basic jQuery and Bootstrap in js
- Work as intern, I worked on designing part(add, update, del) of the task created one add task button, add task, delete task, and update task

Project:

Web Development Front-end by Raise Digital

- Bootstrap and HTML Calculator
- HTML To Do List
- Creation of Single Page Website

Soft Skills:

- Problem-solver
- Time Management
- Learner
- Detail oriented
- Analytical Thinking
- Team Collaboration
- Adaptability
- Initiator

Volunteer Experience:

Anmol Art Foundation(NGO):

- Conducted over 250+ students, our team worked on the AASHAYE project, where faced Public speaking, Event Management, and Leadership
- Student Placement cell (SPC) Coordinator.

I learned -Sense of Purpose and Fulfilment

-Development of Transferable Skills

-Expanded Network and Community Engagement
